## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the first and second connector means on the portions of the facemask as set forth in claims 3 and 6 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The amendment filed March 31, 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall

Art Unit: 3765

introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the change to the description of Figure 7 and specifically the location and use of the rings 10, 11.

Applicant is required to cancel the new matter in the reply to this Office Action.

3. The substitute specification filed March 31, 2005 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: a marked up version of the specification and a statement that the substitute specification includes no new matter were not submitted.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. On line 1 of claims 1-3 the recitation of "A hood packed and a facemask" is awkward language making confusing the metes and bounds of the claims. It appears "A hood packed and a facemask" should read --A hood packed with a facemask--. On line 1 of claims 4-6 the recitation of "An integrated hood packed and a facemask" is awkward language making confusing the metes and bounds of the claims. It appears "An integrated hood packed and a facemask" should read --An integrated hood and facemask, the hood packed with the facemask--. In claim 1, line 3 and in claim 4, line 4 the limitation of "a hood" makes confusing whether such hood is the same as or is in addition to the hood set forth on line 1 of each claim. It appears that "a hood" should read --the hood--. On line 3 of claim 3 and on line 4 of claim 6 "on portion" is confusing and it appears should read --one portion--.

*Allowable Subject Matter*

6. Claims 1-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

*Response to Arguments*

7. Applicant's arguments filed March 31, 2005 have been fully considered but they are not persuasive. Contrary to applicant's remarks the claims are indefinite as noted in the above rejection of claims 1-6 ably set forth above.

*Conclusion*

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

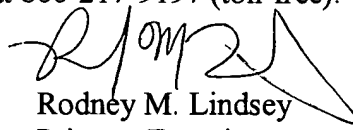

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
